Rapids Twisting Gel

TM. 1465

Rapids Twisting Gel Filter

PRODUCT INFORMATION

SIZE :	W200 * D130 * H210mm
WEIGHT :	1,382g
QTY :	6/CTN

SPEC

230/240V Model

Power Requirement of Pump	AC230 -240V, 50Hz
Max Aquarium Volume	50L
Flow Rate of Pump	480L/hr
Power Consumption of Pump	7.7W
Power Code Length of Pump	1.7m

220V Model

Power Requirement of Pump	AC220V, 60Hz
Max Aquarium Volume	50L
Flow Rate of Pump	485L/hr
Power Consumption of Pump	4.3W
Power Code Length of Pump	1.7m

120V Model

Power Requirement of Pump	AC120V, 60Hz
Max Aquarium Volume	50L
Flow Rate of Pump	450L/hr
Power Consumption of Pump	7.7W
Power Code Length of Pump	1.7m

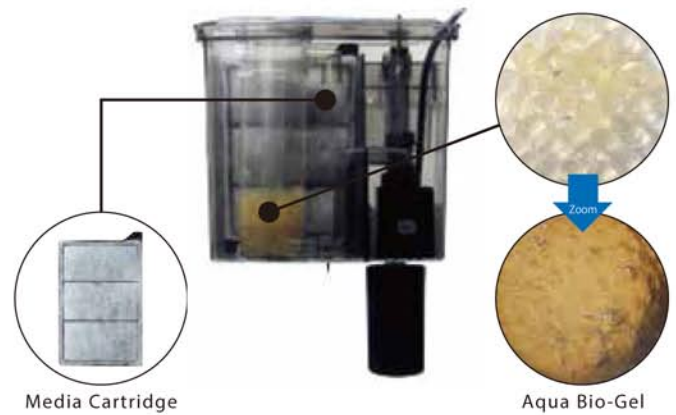

TM. 1466

Replacement Gel Media 1pcs

PRODUCT INFORMATION

SIZE :	W90 * D15 * H120mm (80cc)
Weight :	62g
QTY :	40/CTN

INTRODUCING AQUA BIO-GEL FILTER, LOOPING FILTER MEDIA

Aqua Bio-Gel purifies water very efficiently in spite of its small volume. Its continuously looping microporous structure with the high hollow rate of 90% makes it happen. Further, Aqua Bio-Gel keeps water clean and stable for a long time because its looping activity keeps the media away from building up sludge.

Notes: No bacteria is colonized in newly opened Aqua Bio-Gel. It usually takes 1 to 2 months in fresh water or 3 to 4 months in marine water before the media demonstrates its biological filtration.

MORE FILTRATION WITH THE MEDIA CARTRIDGE

The media cartridge consists of poly-fiber pad, activate carbon and zeolites. This cartridge provides full ammonia adsorption, high efficient waste trap, and removing discoloration and odors that Aqua Bio-Gel can't by itself. Using the cartridge with Aqua Bio-Gel will make sure the filter system gets the most out of it.

EASY INSTALLATION, JUST HANG THE FILTER ON YOUR TANK

STRESS-FREE MAINTENANCE

Just two things to do to keep the filter system running well; cleaning or replace The Media Cartridge and the sponge at the inlet pipe, that's all. The Media Cartridge can be replaced without dipping your hand in water.

Rapids Power Filter

TM. 1423

TM. 1421

Rapids Power Filter S

PRODUCT INFORMATION

SIZE :	W120 * D115 * H140mm
WEIGHT :	513g
QTY :	12/CTN

SPEC

230/240V Model

Power Requirement of Pump	AC230 -240V, 50Hz
Max Aquarium Volume	40L
Flow Rate of Pump	240L/hr
Power Consumption of Pump	5.3W
Power Code Length of Pump	1.7m

220V Model

Power Requirement of Pump	AC220V, 60Hz
Max Aquarium Volume	55L
Flow Rate of Pump	330L/hr
Power Consumption of Pump	2.6W
Power Code Length of Pump	1.7m

120V Model

Power Requirement of Pump	AC120V, 60Hz
Max Aquarium Volume	50L
Flow Rate of Pump	300L/hr
Power Consumption of Pump	2.7W
Power Code Length of Pump	1.7m

Rapids Power Filter L

PRODUCT INFORMATION

SIZE :	W200 * D135 * H265mm
WEIGHT :	725g
QTY :	12/CTN

SPEC

230/240V Model

Power Requirement of Pump	AC230 -240V, 50Hz
Max Aquarium Volume	80L
Flow Rate of Pump	480L/hr
Power Consumption of Pump	7.7W
Power Code Length of Pump	1.7m

220V Model

Power Requirement of Pump	AC220V, 60Hz
Max Aquarium Volume	80L
Flow Rate of Pump	485L/hr
Power Consumption of Pump	4.3W
Power Code Length of Pump	1.7m

120V Model

Power Requirement of Pump	AC120V, 60Hz
Max Aquarium Volume	75L
Flow Rate of Pump	450L/hr
Power Consumption of Pump	7.7W
Power Code Length of Pump	1.7m

Why Rapids Power Filter

- A state of the art compact hanging filter coupled with an one-touch filter cartridge.
- Keeps the aquarium water quality ideal via its unique two layer filtering system. This system consists of a Poly-Fiber Media + Activated Carbon inspite of its compact size.
- Easy to install and easy to handle.
- Application up to a 40L tank with the small Rapids Power Filter while up to a 80L tank with the large. Also applicable as a sub filter when used in conjunction with a canister filter or a top filter.
- Ideal for a small fresh water tank with dwarf fishes, shrimps, or plants for beginners.

SATELLITE BOX for easy breeding and/or separating from others

Place the SATELLITE BOX onto your aquarium and connect all parts as explained on manual inside this box. Connect an air pump (not supplied!) onto the circulation pipe and fill the unit with aquarium water. Now your SATELLITE is ready, the water will circulate from the aquarium in and out your SATELLITE BOX, keeping water quality and water temperature perfect but separating the breeding fish and egg, young fish or shrimps.

SATELLITE BOX, for breeding of many kinds of fish and shrimp, and also useful if you want to keep fish or shrimp separate from others. Ideal for freshwater and marine aquariums.

 M3: 0.089M3

The Exo Terra Cricket Pen is ideal for housing, keeping and dispensing live crickets. Crickets prefer dark spaces, and will readily crawl into the tubes which provide hiding places for them, making it easy to use the tubes as dispensing tools. The tubes remain in position when the lid is removed, allowing easy access and less chance of cricket escape.
