TOM

AQUARIUM PRODUCTS

Aquarium & Small Animal Products

Introduction

Throughout its history, TOM brand has been highly regarded for superior quality, innovative products and reliable service. In addition to providing a wide array of aquarium products, TOM produces a variety of small animal and reptile products.

With over 600 employees, TOM has designed and manufactured products for OEM accounts and specialty distributors throughout the world.

Our manufacturing processes include injection molding, plastic extrusion, assembly and packaging. We use superior quality plastics exclusively, providing clarity and quality unsurpassed in the pet industry. Tooling is designed to precise standards by our in-house engineers and monitored throughout the mold-building process to ensure unsurpassed quality and durability.

We have partnered with the top pet product distributors and dealers throughout the world to supply high quality products to the hobbyist.

RAPIDS PRO FILTER

Rapids Pro Filtering System is constructed of only the highest quality parts and materials; providing a powerful and quiet filter. This patented injection molded filer gives you the best of two popular aquarium filter, the canister filter and the wet/dry.

The State-Of-The-Art Design makes this filter extremely efficient. Thoroughly engineered to deliver the best in 3-stage filtration, this filter provides superb mechanical, chemical and biological filtration. Delivering optimum water movement and consistently processing waste and impurities so the aquarium's water quality remains ideal. All the while keeping the aquarium water crystal clear and your tank inhabitants healthy.

The Overflow Box delivers most favorable surface skimming, removing aquarium surface contaminants and sending them to the filter where these waste materials are trapped and removed. This unique Overflow Box is designed to disrupt the filter's water flow in the event of loss of electrical power, therefore preventing the aquarium's water from draining back down into the filter and overflowing. When electrical power returns, the Overflow Box automatically initiates water flow, re-establishing aquarium filtration.

The Rapids Pro Filter also comes complete with a built in protein skimmer, actively removing dissolved organic waste before they are able to enter the filter, as a result increasing the life of the filter media. These waste materials (dissolved organic compounds) are attracted to the fine bubbles produced by the water pump with venturi. As these fine bubble move upward in the Reaction Chamber, the dissolved organics adhere towards the top of the Reaction Chamber forming a foamy layer. This foamy layer and is then pushed up and into the Collection Cup where it is captured and easily disposed of.

The spur porous Sintered Glass Bio-Cylinders with the additional Bio-Balls supplies unsurpassed biological filtration, resulting in the rapid oxidation of ammonia and nitrite while beneficial gas exchange is greatly increased as water trickles over the exposed Bio-Cylinders and Bio-Balls. The unequaled Carbon Cloth Pillow provides full adsorption kinetics with 100% activation, aggressively removing discoloration and odors.

AUTO FILL SYSTEM

PRODUCT INFORMATION
SIZE :	W392 * D218 * H490mm
WEIGHT :	3,694g
QTY :	2/CTN

This unique gravity fed water replacement system compensates for water evaporation, adding make-up water slowly back into the aquarium as needed. Holds up to 3.5 gallons of make-up water.

TM. 1425
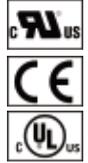

RAPIDS PRO FILTER WITH UV STERILIZER RP90

PRODUCT INFORMATION (PACKAGE)
SIZE :	W455 * D270 * H595mm
WEIGHT :	9,600g
QTY :	1/CTN

SPEC
TANK SIZE:	90Gal	
CAPACITY:	CIRCULATION PUMP:	700Gal/hr
WATTAGE :	CIRCULATION PUMP:	51W
	UV LIGHT:	18W

The Rapids Pro with UV Sterilizer supplies optimum and efficient filtration for both freshwater and saltwater aquariums, engineered to deliver unsurpassed 3-stage filtration (mechanical, chemical and biological). This unique filter provides superb water movement, consistently processing waste and impurities so the aquarium's water quality remains ideal, all-the-while keeping the aquarium water crystal clear and your tank inhabitants healthy. UV Sterilizer effectively removes green water and aids in eradicating harmful parasites.

TM. 1352

OVERFLOW BOX

PRODUCT INFORMATION
SIZE :	W210 * D185 * H200mm
WEIGHT :	1,015g
QTY :	6/CTN

The patented Overflow Box with adjustable water flow gate provides surface skimming, removing aquarium surface contaminants. This uniquely designed overflow system allows minimum water to drain back into the sump in the event of electrical power loss thus preventing flooding. Then when the electrical power returns, automatically initiates water flow and starts the filter.

RAPIDS POWER FILTER WITH PROTEIN SKIMMER

The Rapids Power Filter with Protein Skimmer is a total filtration system for saltwater aquariums, providing mechanical, chemical and biological filtration while combining a highly efficient protein skimmer. It is basically a protein skimmer and aerating power extracting unwanted fish waste and uneaten fish food. Optimally increasing beneficial gas exchange as the water is returned to the aquarium. The Rapids Power Filter is easy to operate and hangs on the back of the aquarium. Made of high impact plastic for years of dependable use.

RAPIDS MINI POWER FILTER PF-80

PRODUCT INFORMATION
SIZE :	W120 * D110 * H225mm
WEIGHT :	733g
QTY :	12/CTN

SPEC
TANK SIZE:	20G
CAPACITY:	80Gal/hr
WATTAGE :	4.1W

The super-efficient Rapids Mini Power Filter provides the best in 3-stage filtration, aerating and cleaning the water 80 gallons per hour. Aquarium water is pumped through the efficient cartridge, filtering out undesirable waste material while purifying the water with highly adsorbing activated carbon. Then through the Bio-Insert which supports beneficial bacteria that work to remove toxic ammonia and nitrite.

BETTA SECURITY HOUSE

PRODUCT INFORMATION
SIZE : W400 * D53 * H125mm
WEIGHT : 189g
QTY : 12/CTN

Accommodates up to 4 Bettas. Comes with;
• Lid to keep fish securely in their individual compartment
• Silicon suction cups that result in stronger tank adhesion
• Ample slots for ideal water circulation
• Removal smoky dividers, which reduces Betta's ability to see each other
Ideal for dividing pregnant or aggressive fish.

TM. 1198

HATCH'N FEEDER BRINE SHRIMP HATCHER

PRODUCT INFORMATION
SIZE : W52 * D130 * H215mm
WEIGHT : 168g
QTY : 24/CTN

This one-of-a kind brine shrimp hatchery is designed to hatch brine shrimp eggs and then dispense the body brine shrimp (napulii) directly into the aquarium. Providing highly nutritious live food to your fish. Easy to set up and easy to use, your fish will benefit greatly. Hatchery works in both freshwater and saltwater aquariums.

The wide gate on top makes your daily pet care easy.

Easy daily feeding with 2 pcs. of transparent feeders.

Why LillipHut??

1 **Patented base structure with tray for easy cleaning.**

2 **One touch separation of case and base for easy maintenance.**

3 **Wide transparent panels on front and back present super clear view. These panels also prevent your pet's mess out of the cage.**

LillipHut's Patented Base Structure!

LillipHut's cages have the special structure in their bases. Our patented base guides all the wastes smoothly down toward its tray while you used to have a hard time with other cages cleaning up because wastes usually get stuck between base and tray.
